## New Online Learning Helps Prepare for Major Federal Rule Changes.

Profound changes to federal long-term care rules are coming, and RoP Learning is here to help adapt to—and thrive in—this new regulatory environment.

New CMS Requirements of Participation (RoP, also known as the CMS Mega-Rule) standards require major changes to nearly every aspect of care, policies, support services, administration and facility management. RoP Learning offers a full package of educational tools to ensure your facility and staff are ready.

Being unprepared or out of compliance threatens to harm those you care for, your facility and your bottom line.

**Quite simply, being uneducated on these changes, means being unprepared.**

“Angst can be high as facilities wade through the updated Requirements for Participation and prepare for compliance. RoP Learning is an incredible, affordable way for leadership and front-line staff to gain a deep understanding of these critical changes and start implementation now.”

– Linda Shubert, MSN, RN

Developed by a team of highly respected clinical professionals, RoP Learning offers affordable and accessible online education. RoP Learning allows you to choose convenient online learning modules that are relevant and specific to each team member.

This activity has been submitted to WNA CEAP for approval to award 21 contact hours. Wisconsin Nurses Association is accredited as an approver of continuing nursing education by the American Nurses Credentialing Center’s Commission on Accreditation.

NAB accreditation is also being submitted.

RoP Learning’s 21 web-based learning modules cover the **interpretive guidelines set by CMS:**

Residents’ Rights

Admissions, Transfer, and Discharge Rights
